Interstar's boardless T.38 Fax over IP software attains GSA approval for US Federal fax requirements

Next week's FOSE 2006 government IT show in Washington, DC will showcase Interstar's boardless XMediusFAX® T.38 Fax over IP (FoIP) fax server software, a GSA-approved (General Services Administration) FoIP solution for the US Federal government

Montreal, Canada, March 3, 2006

Interstar Technologies (www.faxserver.com), the global IP fax leader since 2002, will exhibit at next week's FOSE (www.fose.com) government IT tradeshow (booth 839), **March 7-9**, at the Washington Convention Center, in Washington, DC. Interstar will showcase its award-winning XMediusFAX boardless T.38 Fax over IP (FoIP) fax server software, a GSA-approved IP fax solution for U.S. Federal government agencies worldwide.

"Interstar's XMediusFAX T.38 FoIP products are the perfect fax solutions for VoIP networks, and we are excited that they are now easily available to government entities through GSA federal supply schedule," said Martin Demers, President and CEO of Interstar Technologies, Inc. "XMediusFAX's award-winning technology is the first of its kind in the VoIP industry, because it allows for secure and robust IP faxing without fax boards, extra POTS lines, and specialized fax materials and supplies."

Customer testimonial

Interstar's fax server solutions are deployed by a number of government agencies, including a US federal legislative branch with 600 offices handling a daily volume of 30,000+ inbound and outbound faxes, and simultaneous fax broadcasts to thousands of outlets. Some other government entities deploying Interstar's fax server solutions include: Sacramento County, American National Red Cross, Canadian Senate, Canadian Red Cross, and Public Safety Emergency Preparedness Canada (PSEPC), as well as key government contractors such as Titan Corporation, TriWest Healthcare Alliance and Boeing.

"We selected Interstar's XMediusFAX SP solution for its industry-class, fault-tolerant technology and high scalability," said Rick Green, Vice

President & CIO of TriWest Healthcare Alliance is a Phoenix-based corporation that partners with the US Department of Defense (DoD) to provide access to cost-effective, high-quality healthcare for active and retired uniformed services members and their families throughout 21 states in the Western US region.

About Interstar Technologies

As the world pioneer of boardless T.38 Fax over IP (FoIP) fax server solutions for VoIP networks, Interstar Technologies is “Changing the Way You Fax” everywhere. Recognized for its award-winning XMediusFAX® (boardless T.38 FoIP) and LightningFAX® (for legacy fax boards) fax server software, Interstar Technologies caters to enterprise, government and service provider accounts of all sizes. With thousands of systems installed in more than 40 countries, Interstar is committed to providing world-class FoIP solutions. Interstar dominates the worldwide IP fax server market for the 4th consecutive year, leading with nearly 75% market share, per Davidson Consulting in a July 2005 study.

Interstar Technologies maintains partnerships with Cisco Systems, Avaya Inc., 3Com, AudioCodes, Bell Canada, Groupe SAGEM, Pitney Bowes, HP, IBM, Lotus, Microsoft, and SAP. Its fax server software solutions are distributed worldwide through a global network of business partners, system integrators and OEM partners.
